**Method of Computation for South Carolina Wine Tax:**

The rate of excise tax on wine in U.S. size containers not listed is 6¢ for each 8 oz. or fraction thereof in quantities less than one gallon and 90¢ per gallon or fraction thereof in quantities of one gallon or more. The rate of additional tax on wine in U.S. size containers not listed is 1.2¢ for each 8 oz. or fraction thereof and 18¢ per gallon or fraction thereof in quantities of one gallon or more.

The rate of excise tax in containers listed in metric sizes is computed at 25.35¢ per liter. In containers of less than or more than one liter, the tax is figured proportionately. The additional tax is computed at 5.07¢ per liter. Metric container sizes not listed on Schedule A must be computed by the U.S. fluid ounce method.

This return DUE on the 1st day of month following period covered by the return, and becomes DELINQUENT after the 20th of the month. In no case shall any discount be allowed if the taxes are not paid in full or if either the report or the taxes are received by the SC Department of Revenue after the date due, or after the expiration of any extension granted by the SC Department of Revenue.

**Penalties** - Failure to file a return will result in a penalty of five percent (5%) for the first month plus five percent (5%) for each addition month not to exceed an aggregate of twenty-five percent (25%). Failure to pay will result in penalties of one half of one percent (.5%) per month not to exceed twenty-five percent (25%). Other penalties may apply.

**Interest** - Interest on all overdue accounts will be assessed at the rate provided under Sections 6621 and 6622 of the Internal Revenue Code. Rates will change quarterly depending on the prime rate. Interest will be compounded daily.
